PROFILE

Motivated and results-driven Software Developer with a strong foundation in full-stack web and mobile development. Experienced in designing and building scalable applications, with a keen interest in creating impactful digital solutions. Skilled in leveraging modern technologies — including Node.js, React.js, Next.js, and React Native — to deliver high-quality, production-ready products.

PROJECTS

Blur — Anonymous Chat Platform

- ▶ Designed and built a full-stack real-time web application enabling users to create secure, password-protected anonymous chat rooms.
- ▶ Implemented shareable room links so anyone can join without creating an account, lowering the barrier to private communication.
- ▶ Developed instant messaging with full anonymity, message reactions, and threaded replies for organised conversations.
- ▶ Deployed on Vercel with a seamless CI/CD pipeline, ensuring high availability and continuous updates.

Quranic Read & Listen — iOS Mobile App

- ▶ Designed and developed a cross-platform mobile application (React Native) published on the Apple App Store.
- ▶ Enables users to read and listen to the Holy Quran through a clean, accessible interface optimised for mobile devices.
- ▶ Managed the full app lifecycle — from development through App Store submission and deployment — end-to-end.

AhbizPay — Mobile VTU & Payments App

- ▶ Built a mobile Virtual Top-Up (VTU) application for streamlined bill payments, airtime purchases, and data bundle subscriptions.
- ▶ Integrated Paystack for secure payment processing and implemented backend webhooks for real-time transaction validation and status updates.

TECHNICAL SKILLS

Backend: Node.js, REST APIs

Frontend: React.js, Next.js

Mobile: React Native

Database: MongoDB

Tools: Git, Vercel, Paystack

EDUCATION

B.Eng. Mechanical Engineering

University of Ilorin

2024 – Present

SOFT SKILLS

Effective Communication

Critical Thinking

Self-Directed Learning

LANGUAGES

English — Fluent

Yoruba — Fluent

Arabic — Basic

- ▶ Supported multiple service categories: mobile airtime, internet data, electricity bills, and cable TV subscriptions.
- ▶ Implemented user authentication, transaction history tracking, and in-app balance management for a complete financial experience.
